PROFILE

Passionate and dedicated full-stack developer with a strong commitment to delivering high-quality solutions. Always eager to take on new challenges, I am open to new opportunities where I can contribute my enthusiasm, adaptability, and expertise.

PROFESSIONAL EXPERIENCE

Since July 2023 — **FullStack JavaScript Developer**
BGEN
United Kingdom

Designed, developed and documented a project management and progress tracking web application (**React**, **Node, Express, MySQL**). Built to enhance team collaboration, this interactive dashboard allows users to visualise and manage resources (CRUD) through an intuitive, user-friendly interface.

From Sept. 2022 to Oct. 2022 — **Backend Web Developer (internship)**
ADENÜM
Agora Ex Machina, online delegative democracy platform

Reworked the voting system, implemented AJAX... PHP/Symfony, JavaScript, jQuery, MySQL.

EDUCATION

2022 — **Web/Mobile Web Developer**
ENI Computer School

Professionnal title, equivalent to a Diploma of Higher Education (Bac+2)

From 2018 to 2020 — **Master in English Studies (Bac+5)**
University Bordeaux Montaigne

Research essay : "*A predictable machine uprising? Artificial Intelligence in American Science Fiction Films*".
